ABOUT US

Tech Brilliance Academy is an initiative for India's youth by providing them with the necessary skills & relevant live training to increase their chances of finding a professional work in various sectors. The curriculum is designed to cater to various professional needs. Whether you're an early-career professional looking to build a career in data science, a mid-level IT professional looking to transition into a career in data science, or a senior professional actively participating in formulating your organisation's data management operations. This programme will help you align your learning to your professional goals.

VISION

Our vision is to empower generation to develop future ready skills. We aspire to act as a catalyst for skills development in the learning system available to learners today. By equipping individuals with skills that helps them to be a part of the ever changing global workforce.

A photograph showing a man with a beard and glasses, wearing a dark blazer and jeans, sitting on a wooden desk. He is gesturing with his right hand while holding a tablet in his left. Across from him, a woman with long dark hair is seated in a white chair, facing him. The background features large windows and a bookshelf.

MISSION

We believe in the power of collaboration and hard work. Together, we strive to make a positive impact in the world.
